

PRESSINFORMATION September 2015

Images can be downloaded on www.swedishicescraper.se/Press

Maybe you wished sometimes that your ice scraper could turn into a warming Glove when winter is biting hard. And after finished scraping you have thought that it would be good to have a protecting Sleeve for the ice scraper's edges and also to avoid wet snow to be spread inside the car compartment.

Now it's here; the new "Sleeve & Glove" offering all-in-one functionality!

It is as simple as versatile and easy to transform thanks to the adaptive stretch in the temperature isolating Neoprene. To change from sleeve to glove; just pull the Neoprene over your hand, to full or half length as you desire.

Folded to a sleeve it can also be used as a snow brush or "soft scraper" to remove light snow or condens/water from car windows.

Sleeve & Glove in blue Neoprene is equipped with ice scraper Yellow-Green 5 mm, our most famous model sold to customers all over the world - state of the art with its bright luminous color (easy to find in the snow) and functional shape making traffic safer on cold, frosty mornings.

Price from 165 SEK incl ice scraper

Can be purchased in our web shop or at selected distributors, more info on www.swedishicescraper.se/Distribution

Best Regards

Swedish Ice Scraper® *Performance in Cold*
